Sourcing

Eliminate the Guesswork with Robust, Highly Customised Sourcing

Go beyond limited coverage from the news to include intelligence from customisable sources such as company websites, social media, press releases, review websites, and regulatory portals.

Noise-filtering

Isolate the Signals from the Noise with Unmatched Relevance

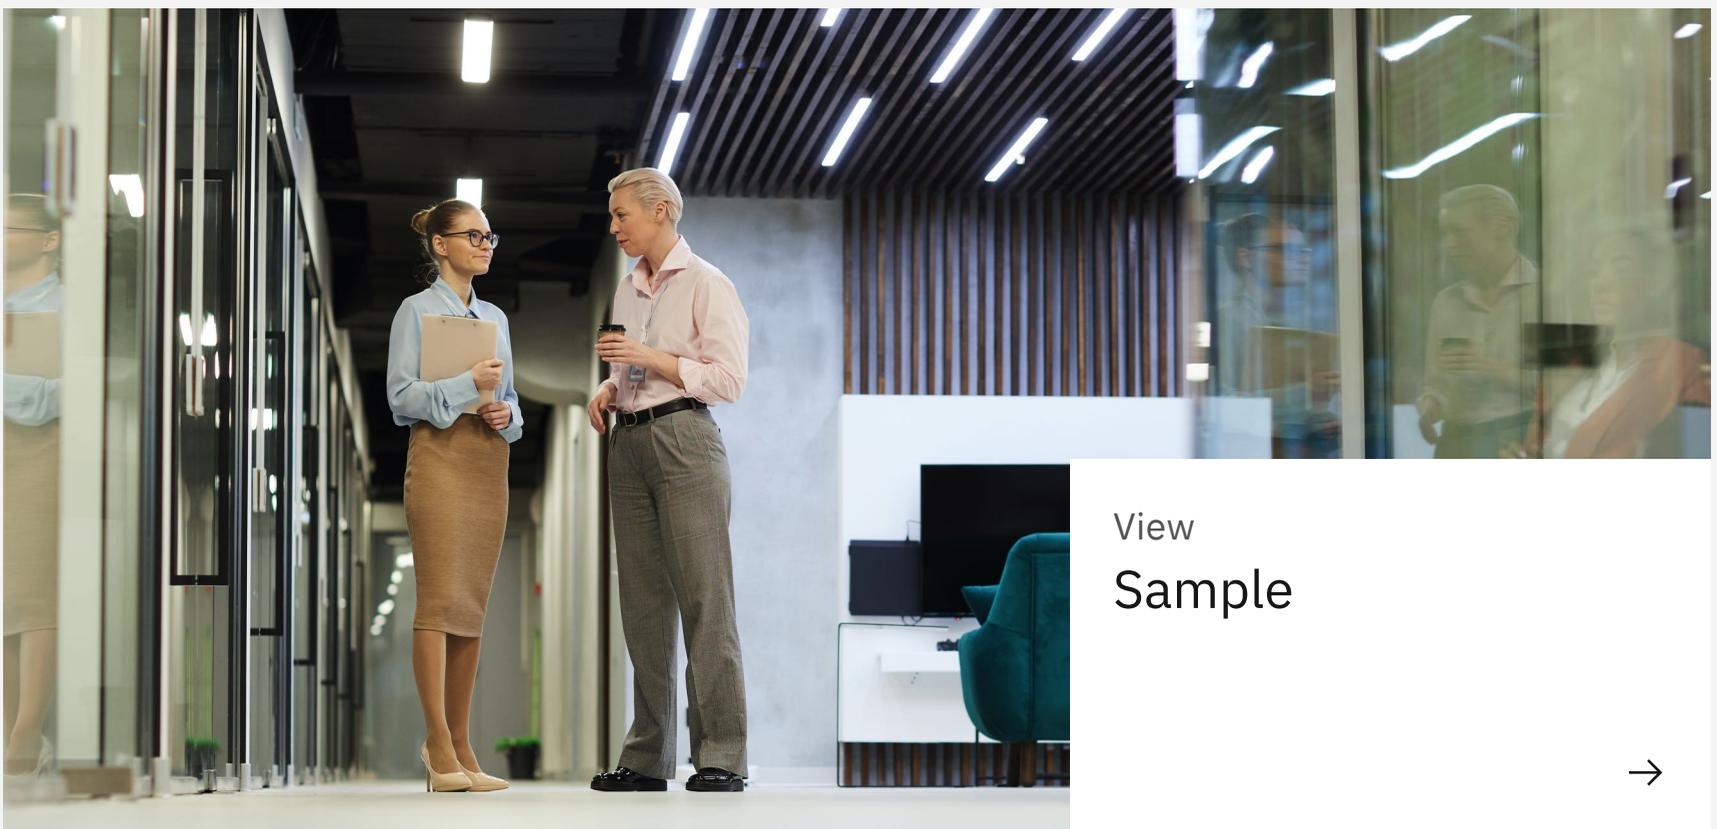

Contify delivers actionable intelligence using a hybrid system of machine learning and contextual noise-filtering algorithms, augmented by a layer of human curation.

Structuring

Tailored to Resonate with your Business Objectives, Teams and Key Stakeholders

We work with you extensively to categorize and structure the sourced updates in a manner consistent with your specific business goals and reporting requirements.

Breakout Session

Personalize Competitive Intelligence using an AI-enabled Market Intelligence Platform

Mohit Bhakuni

Founder and CEO
Contify

Wed, 18 Nov 2020 · 12:00 pm – 12:30pm, ET

It is incomplete to say that “Information that is actionable is intelligence.” A piece of information can be actionable or not depending on the receiver of that information. Organization-wide intelligence, that is a one-size fit all, is usually just information, not intelligence.

In this session, we’ll discuss the best practices for personalizing intelligence for different teams and individuals using an AI-enabled market intelligence platform. Using case studies, we’ll discuss the mapping of taxonomies with individual use-cases, personalizing intelligence outputs, incorporating feedback, user analytics, and more.
